

Dear Members,

As part of our ongoing 2024 club refurbishment plan we have to replace the anti-slip surface on our swimming pool deck.

In order for us to do this we unfortunately will have to close the leisure club from Monday 9th of December until Saturday 14th December. The new surface that is being installed uses a chemical hardener which has a very strong chemical odour and therefore it would not be safe or comfortable for our members to use any part of the club while the works are being done.

We are confident that this new surface will be a fantastic upgrade to our pool area and that its high anti slip rating will make our members feel safe and secure when walking around the pool area.

We understand that there has been some inconvenience already this year for our members as we upgrade and improve the club and we always strive to carry out any works with as little inconvenience to our members as possible.

Please speak to our membership team on 012740078 regarding your membership for this period.

Thank you in advance for your patience and understanding as we continue to improve the Glenview Leisure Club.

Regards,

Declan Crean

Glenview Leisure Club Manager
